January 01 , 2023

Dear Colleagues,

We are excited to announce that our Winter Implant Fellowship is one month away and that you have chosen iHDS to elevate your education & training in the field of implant dentistry. We recommend you bring your laptop and ipad/android tablet to benefit fully from the didactic and practical lessons. We will share our content for you to take your own notes and introduce you to BSB software for implant planning.

We recommend the following specs on your laptop (monitor can be smaller on laptop):

- Operating System: Windows 10 Home/Professional 64 bit or OS X 10.13 (High Sierra) or newer
- Processor: Quad Core Intel i7 or comparable
- RAM: At least 16 GB
- Video Card: dedicated NVidia or AMD card, at least 3 GB video RAM (e.g. NVidia GeForce GTX 650, AMD Radeon HD 7750, ...)
- Monitor: 21 inch, resolution at least 1920x1080
- Hard Disk: 5 GB of free space

Please visit <https://blueskybio.com/pages/download-software> to download BSB software. Follow the required registration and have it ready in your computer. We will share a Google drive where you can access the Dicom and STL for the patient that we will perform surgery on our practical session. Please, also bring your loupes, and any headlight you like. We will provide all disposables for you.

In order to get our lecture content, you will need to register at <https://illunotes.com> and create an account. We will provide you with lecture codes to download our content. If you have not reserved your lodging, please follow this link <https://ihdsce.com/travel/>

We are looking forward to this great course and experience with you

Regards

Dr. Giancarlo Romero  
President at iHDS
